Rehabilitation Expertise

Rehabilitation Management

- Belinda has a wide range of experience across most injury categories and is skilled at assessing her client's needs.
- She creates holistic rehabilitation plans to improve mental and physical wellbeing using a client centred framework.
- Belinda's specific interests include working with clients over 65 years of age.
- Her clients span the severe to catastrophic range of injuries including amputees, chronic pain, spinal and multi-trauma.

- Her vast knowledge is applied to support and enable clients through goal-focused case management.
- Facilitation and management of home assessments and adaptations alongside either community or private services.
- She accesses evidence-based interventions to achieve health, wellbeing and return to function and work goals.
- Has experience of team management, clinical supervision, training and clinical governance.

Vocational Rehabilitation

- Belinda is skilled at liaising with employers and supporting graduated return to work programmes or advise on support techniques to assist early return to work.
