Clinical Experience

- An Occupational Therapist, David has been a Rehabilitation Manager since 2012.
- He has over 17 years of experience in various Occupational Therapy roles within the NHS, Community Social Services and Private Practice.
- His special interests are amputations, complex ortho trauma, spinal injury and occupational health.

Rehabilitation Expertise

Rehabilitation Management

- David was the lead OT for co-ordination of rehabilitation, housing for the disabled and support groups for seven years, when he worked as a Community Occupational Therapist/Care Manager.
- Patients had a range of profound multiple pathologies and long-term chronic conditions including Motor Neurone Disease, spinal injuries and stroke.
- David is skilled at identifying barriers, setting goals and achieving outcomes for his clients.

- He has a substantial knowledge and understanding of social services and statutory services available within his region, and also in Scotland, where he worked previously, and can facilitate fast access to these services.

Vocational Rehabilitation

- Goal orientated, David concentrates on the functional recovery of his clients to support their return to work.
- He engages with them, and their employers, to establish return to work discussions as early as possible in the process, to ensure optimal outcomes.

CPD & Training

- Flags Biopsychosocial Model: Applying to rehabilitation management
- Motivational Interviewing
- Mental Health Training (depression, anxiety and suicide)
- Suicide Awareness
