Clinical Experience

- Ellen is a skilled and experienced Occupational Therapist since 2007.
- She has been a Rehabilitation Manager since 2007.
- Clinical experience includes twelve years working with occupational therapy clients in the medical, orthopaedic, neurological and brain injury areas, in community and out-patient clinic settings.
- She has special interest in brain injury and amputation case management.

Rehabilitation Expertise

Rehabilitation Management

- Ellen possesses extensive rehabilitation management experience assessing, developing and managing complex comprehensive Rehabilitation Plans.
- Ellen specialises in working with people with life-changing, catastrophic injuries, notably acquired brain injuries, spinal cord injuries, amputations and polytrauma injuries.
- As an OT, Ellen is very proficient in assessing her clients' home/work environments and facilitating

their functional independence with their activities of daily living and mobility.

- Her skills include setting SMART goals for adolescents and adults in liaison with all stake-holders.
- Goal orientated, Ellen concentrates on the functional recovery of her clients, engaging them in establishing return to work discussions as early as possible in the process, to help ensure optimal outcomes.

Vocational Rehabilitation

- Ellen's vocational experience includes supporting clients return to their pre-injury job role, or identifying suitable alternative work roles.
- She has experience working with employers and clients to facilitate return to work through face to face meetings, arranging work site assessments and implementing safe and graduated return to work programmes.

CPD & Training

- Flags Biopsychosocial Model: Applying to rehabilitation management
- Mental Health Training (depression, anxiety and suicide)
- Motivating, Interviewing and Mental Capacity Act
