Base: Lanarkshire

Areas Covered: Scotland, North East

Specialisms

Acquired Brain Injury

Orthopaedic Trauma

Psychological Trauma

Injury Expertise

- Complex Orthopaedics
- Traumatic & Acquired Brain Injury
- Psychological Trauma
- Neurological Conditions

Clinical Experience

- Leanie graduated with a first-class honour's degree in Occupational Therapy in 2010.
- She has worked in a variety of settings within the NHS and private practice. These include Accident and Emergency, Trauma Orthopaedics and Medical Wards.
- In recent years she has worked in the community supporting clients with multiple pathologies, including neurological conditions, mental health, brain injuries, alcohol and addictions that required support with complex health and social care needs.

Rehabilitation Expertise

Rehabilitation Management

- Leanie's specialist expertise has been developed in the fields of both acute and chronic conditions. She has experience of working with clients with a range of injuries.
- Her approach is to use her experience to enable clients through goal focused case management, using evidence-based interventions.
- From her experience in the public and private sectors, Leanie is adept at assessing her clients' needs and identifying appropriate support and intervention.

- She is focussed on helping to improve clients' mental and physical wellbeing, using a client centred framework.
- Leanie establishes good rapport with her clients and achieves excellent outcomes for them. She receives consistent positive feedback.

Vocational Rehabilitation

- Leanie applies a biopsychological approach, taking into consideration the biological or physiology of the underlying injury, in addition to addressing psychological and social contextual factors. This approach promotes independence and is supportive of a return to work.
- She works with her vocational colleagues to deliver the required vocational assessments to aid her clients.

CPD & Training

- MA of Science in Specialist Dementia Care
- Mental Health Training
- Prosthetics and Orthotics
- Brain and Mind: Beyond Locked Doors, Managing Complexity in the Community
- Functional Neurological Training
- Beyond the Beginnings: Complex Brain Injury Case Management
- Pain Management
- RTW planning and assessing capacity for work

Memberships & Qualifications

- BSc (Hons) OT & MSc Specialist Dementia Care
- Advanced British Sign Language
- Member of CMSUK & HCPC
