Areas Covered: North West, North East

Specialisms

Acquired Brain Injury

Neurological Conditions

Orthopaedic Trauma

Injury Expertise

- Spinal Injury (not Spinal Cord)
- Mental Health
- Musculoskeletal

Clinical Experience

- Steve has a broad clinical experience working with adults and children.
- He has a specialist interest area of neurological conditions.
- His clinical experience was gained in the NHS and private practice, where he also worked with clients with acquired brain injuries, spinal injuries, orthopaedic trauma and stroke.
- Steve worked with multidisciplinary teams in community rehabilitation.
- His experience included trialling the Enhanced Recovery Programme and working with clients requiring complex discharge packages.

Rehabilitation Expertise

Rehabilitation Management

- Steve has rehabilitation experience across the community and in hospitals.
- His philosophy is to work closely with his client to agree graded SMART goals that identify, create and achieve motivation for the client.
- He is skilled at working with clients who have complex needs and accessing the required services to support discharge and rehabilitation.

- His experience includes intensive rehabilitation for immediately after discharge from hospital.
- This includes assessing, prioritising and coordinating rehabilitation plans, key working and referring on to relevant services.
- Specifically, he is highly knowledgeable in rehabilitation of upper limb function, which includes designing meaningful rehabilitation plans.

Vocational Rehabilitation

- Steve is focused on his clients achieving a return to work or obtaining meaningful employment.
- He works with Vocational colleagues to identify and implement the appropriate vocational plan at the appropriate time for the client.

CPD & Training

- Masters module in neurological pathology and patient management.
- Introduction to Bobath Concept in the assessment and treatment of patients with neurological dysfunction.

Memberships & Qualifications

- BSc OT
- CMSUK
- HCPC
