- Acquired Brain Trauma (Mild)

Clinical Experience

- Julie has worked in clinical practice for over 22 years with experience in the NHS and private practices. She gained extensive experience working in a theatre environment including emergency and elective surgery.
- Her clinical experience includes a broad range of conditions and respective rehabilitation interventions. These include orthopaedics, plastics, dental and gynaecology.
- Julie is experienced in working with clients with complex health conditions.
- She was responsible for completing assessments for Continuing Health Care including reviewing care packages for NHS funded clients to meet their long-term care needs.
- Through this, Julie has extensive experience working with the client's family, representatives, and other community services.
- Her private practice roles included the role of Matron in private care homes and disability assessments.

Rehabilitation Expertise

Rehabilitation Management

- Julie has worked as a Case Manager within the NHS and private practice.

- She is experienced working with clients with a broad range of injuries and conditions and this extends to elderly rehabilitation.
- Her philosophy is to apply a biopsychosocial approach to consider all barriers to a successful rehabilitation outcome.
- She is highly experienced at working with GPs, multi-disciplinary health teams and social services.
- Experienced at co-ordinating multiple treatments.

Vocational Rehabilitation

- Julie is a very experienced vocational case manager.
- In her previous roles, she worked with the client and their employer to agree a return to work.
- This included preparing graded return to work planning and liaising to ensure a safe and sustainable return.
- Working with Vocational Assessment colleagues, she is skilled at identifying and instructing for appropriate assessments.

CPD & Training

- Mental Health First Aid Qualification
- Disability assessment

Memberships & Qualifications

- Nursing and Midwifery Council MC
- CMSUK
- HCPC
