Clinical Experience

- Carl has worked in clinical practice within the public and private sectors for 14 years.
- He has gained a broad range of clinical experience including respiratory, musculoskeletal and neurology.
- In his most recent role, he was a Trauma Rehabilitation Co-ordinator, working with clients to support all aspects of their rehabilitation.
- This included:
 - Provision of Rehabilitation Prescription.
 - Organising ongoing patient care including discharge planning, transfers and further rehabilitation.
 - Supporting the rehabilitation consultant at trauma outpatient clinics.

Rehabilitation Expertise

Rehabilitation Management

- Carl has working in an NHS Case Management capacity for five years.
- He has considerable experience coordinating the care of complex adult major trauma clients.
- His philosophy to success is by building sound therapeutic client relationships.

- He is skilled at psychological wellbeing and social screens.
- Carl uses SMART goals developed with the client to motivate and deliver outcomes.
- His experience includes working with multi-disciplinary teams, developing discharge plans through liaising with Major Trauma Centres and working closely with the client's family and representatives.

Vocational Rehabilitation

- Carl is passionate about supporting his clients' return to work.
- He works with his vocational colleagues to identify the appropriate and timely vocational assessments.
- Working with employers, his focus is agreeing a safe and sustainable return to work.
