### Clinical Experience

- Claire has 18 years clinical experience working in the NHS and private practices.
- Her wide clinical experience includes working with brain injury, complex orthopaedic and psychological trauma clients.
- In the NHS she worked as part of multi-disciplinary team where her role was to assess and arrange physical and psychological interventions.
- In private practice, Claire's experience included working as a disability analyst with a focus on complex neurological, mental and physical health conditions.
- Claire has a specialist interest in working with clients who have experienced a brain injury.

### Rehabilitation Expertise

#### Rehabilitation Management

- Claire is a highly skilled Rehabilitation Case Manager with five years' experience.
- She is passionate about facilitating early intervention within the rehabilitation journey.
- Her philosophy is to use a biopsychosocial approach to involve all parties and to improve her clients' overall function and restoration of their quality of life.

- Her case management experience includes amputee clients.
- Her approach of placing the client at the centre of the recovery and rehabilitation process, combined with SMART goals, has achieved outstanding outcomes.
- Claire is very experienced working with and co-ordinating social services and other agencies.

### Vocational Rehabilitation

- Claire has a strong focus on vocational rehabilitation and is skilled at supporting clients to return to or remain in work.
- She works with vocational colleagues to identify the most appropriate assessments to support the client's return to the workplace.
- Claire is comfortable working with employers and facilitating a safe and sustainable return to work.
