Clinical Experience

- Leanne is a registered nurse, with extensive experience through working in Accident and Emergency for several years.
- Her responsibilities included emergency triage, minors, majors, observation unit and complex nursing care.
- She is experienced in the areas of obstetrics, gynaecology and surgery.
- Leanne's role extended to working as a member of the code and trauma team, giving emergency care to critically ill patients.
- Her specialist areas of knowledge are within orthopaedics, mental health, learning disabilities and medical and surgical ailments, treating both adults and children.

Rehabilitation Expertise

Rehabilitation Management

- Leanne worked as a Nurse Case Manager for three years with a UK healthcare provider, where she became highly skilled at supporting clients through their medical and rehabilitation journey.
- Her experience is extremely diverse, including pre-screening assessments, liaising with GPs, Consultants, multi-disciplinary teams, and case management from consultation and hospital admission to discharge.

- Leanne's excellent verbal and written communication skills came to the fore when supporting and liaising with multidisciplinary and interdisciplinary teams.
- She is skilled at reviewing and interpreting medical and rehabilitation reports, to ensure patients receive the appropriate care in line with NHS guidelines.
- Her previous role extended to managing the repatriation of both adult and paediatric clients.
- Leanne's client centred approach and her use of SMART goals creates client motivation and engagement.

Vocational Rehabilitation

- Leanne is experienced in working with vocational specialists to instruct the appropriate assessments.
- She is skilled at liaising with all stakeholders to support and achieve a safe and sustainable return to work outcome.
