- Amputation (Lower Limb)

Clinical Experience

- Sian qualified as an Occupational Therapist in 2019 and has been working with a range of services including acute and community settings, including within the Stroke Early Supported Discharge Team and managing neurological conditions in the community for MND and MS patients and running a Parkinson's Disease clinic.
- She has also worked within trauma and orthopaedics, including supporting clients who have had a lower limb amputation.
- Sian has been involved in social prescribing services and referring to a range of local clinical or non-clinical services. Her experience includes undertaking cognitive assessments and rehabilitation, arranging home adaptations and modifications.
- She also undertook upper limb assessments and rehabilitation, including splint provision.

Rehabilitation Expertise

Rehabilitation Management

- Sian is experienced in managing a large case load of complex patients including completing initial assessments upon discharge from hospital and working collaboratively with clients to set goals, implement rehabilitation

interventions/plans, and complete regular reviews to evaluate the effectiveness of their therapy input.

- Multidisciplinary Team working including joint assessments and home visits with physiotherapists, speech and language therapists, stroke specialist nurses and rehabilitation assistants.
- Regularly liaise with consultants regarding rehabilitation progress and liaise with GPs when supporting patient in returning to driving.

Vocational Rehabilitation

- Sian has experience of working in the community with clients of working age.
- She is skilled in producing written reports to evidence patients' needs for work and working with vocational specialists to identify appropriate assessments to support timely and safe and sustainable return to work with the same or a new employer.
