Specialisms

Acquired Brain Injury

Complex Multi-trauma

Continuing Care
& Complex Needs

Injury Expertise

- Neurological conditions
- Spinal Cord Injury
- Functional Neurological Disorder
- Complex Care Needs & Management

Clinical Experience

- Flora is highly experienced, with 25 years of clinical nursing practice, predominately in the field of neurological conditions within the NHS.
- For 12 years Flora worked as a clinical nurse specialist in acquired brain injury, including recent clinical practice assessing complex brain injuries starting in intensive care, acute ward management, referring and arranging specialist inpatient neurological rehabilitation, supporting the client and family throughout the pathway.
- Furthermore, she has considerable experience as a community matron, assessing and managing a complex caseload of patients in the community. This experience includes continuing health care co-ordinator assessing, approving, arranging, and reviewing funding for complex care, in the community, in-care home and specialist settings.

Rehabilitation Expertise

Rehabilitation Management

- Flora's background includes providing comprehensive specialist care for patients with acquired brain injury within the hospital and home community settings.
- She has extensive experience in brain injury rehabilitation, from the first acute stages in intensive care through to specialist inpatient neurological rehabilitation and to the community.

- She is highly skilled at managing patients with life changing neurological conditions who have complex neurological rehabilitation requirements.
- This includes extensive multidisciplinary teamwork experience to manage and co-ordinate multiple health and social care involvement within statutory services, charity, and the private provider sectors.
- Flora has significant knowledge of and contacts in the NHS and private service providers, identifying the most appropriate and effective treatment for her clients.

Vocational Rehabilitation

- Flora has considerable experience of working in the community with clients of working age, and the skills to work with vocational colleagues to identify and support clients' return to work with the same or a new employer.

CPD & Training

- Working with Clients with Substance Misuse
- Mental Health First Aider certification (2020)
