- Multi-trauma Injuries

Clinical Experience

- Lauren qualified as an Occupational Therapist in 2011. She has ten years clinical experience working in both hospital and community settings within the NHS, local authority, specialist health care providers and private practice.
- These include community-based support and rehabilitation for adults with physical, cognitive and/or mental health conditions, aids and adaptations, homecare and functional skills assessments.
- She has experience of working in expert acquired brain injury services, assessing, designing and implementing specialist functional therapy programmes for clients experiencing a multitude of cognitive, emotional, social and physical health needs.

Rehabilitation Expertise

Rehabilitation Management

- Lauren has a wealth of experience in developing rehabilitation programmes to enable clients to overcome physical and neurological barriers through SMART goal attainment.
- She is skilled in co-ordinating multi-disciplinary rehabilitation, incorporating both NHS and private sector practitioners to allow for progressive, client-focused and collaborative practice.

- Her experience includes physical impairments such as visual field deficits, upper limb weakness and sensory loss as well as complex neuro assessments and reduced functional independence.
- Her clinical skills, knowledge and experience allow her to manage a coordinated approach for each individual client while engaging and supporting their families.

Vocational Rehabilitation

- Lauren has experience working with clients with brain injuries to support them in to work with employers in the charity and voluntary sector.
- Her focus is on improving function to support an early and sustainable return to work.
- Working with her vocational colleagues, and her knowledge functional assessments, Lauren can identify and support the relevant vocational interventions.
