

Eiren Parkes

Rehabilitation Manager

Base: Birmingham

Areas Covered: Midlands

Specialisms

Children & Young People

Traumatic Brain Injury (Complex)

Spinal Cord Injury

Injury Expertise

- Acquired Brain Injury (Complex)
- Epilepsy
- Neurological Conditions
- Cerebral Palsy

Clinical Experience

- Having worked in a variety of health and social care settings since she qualified as a children's Nurse in 2013, Eiren has worked across a broad range of settings, working with a diverse range of families, and managing the long-term health and social issues of children with a broad range of illnesses and injuries.
- For three years Eiren also worked with families, children and young people as a special school nurse, to enable them to access education. She specialised in Neurodivergent disorders and enuresis clinics.
- Eiren is very experienced in working with the wider Multidisciplinary team including paediatricians, physiotherapists, occupational therapists, community children's nurses, learning disability nurses, speech and language therapists, dieticians, continence nurses, immunisations teams, 0-25 education teams, transition services at local and national hospitals, and social care to ensure the child's needs are fully met.
- Eiren's most recent role was as a Complex Care Community Nurse, working with children who have sustained spinal cord injuries, brain injuries and degenerative conditions, as well as their families. She specialised in training carers in complex care packages and signing off competencies.

Rehabilitation Expertise

Rehabilitation Management

- Eiren is skilled in co-ordinating multidisciplinary rehabilitation, incorporating NHS and private sector practitioners, to allow for progressive, client-focused and collaborative practice.
- Eiren's experience across brain injury, spinal cord injury and neurological disorders, combined with her knowledge of NHS pathways in hospital and the community, means she is experienced in taking multi-trauma patients and working with local services to ensure treatment plans are set up appropriately and timely.

Vocational Rehabilitation

- She is skilled in helping children and young people to return to and sustain education.
- Eiren's experienced in supporting Educational Health Care Plans for children and young people, including transition into further education and employment.
- She applies a biopsychosocial approach, taking into consideration the biology or physiology of the underlying injury, in addition to addressing psychological and social contextual factors. This approach promotes independence and is supportive of a return to education.
