

Hamza Godhrawala

Rehabilitation Manager

Base: Aberdeen

Areas Covered: Scotland, Northern Ireland

Specialisms

Traumatic Brain Injury (Complex)

Spinal Cord Injury

Children & Young People

Injury Expertise

- Spinal Injuries (including Spinal Cord)
- Orthopaedic Trauma

Clinical Experience

- Hamza qualified as a Physiotherapist in 2005 and progressed his career in the NHS, community and private settings.
- He has gained significant experience working with adults, children, and young people with complex neurological and orthopaedic conditions.
- Hamza is very experienced in multi-disciplinary working to achieve the best results for his clients.

Rehabilitation Expertise

Rehabilitation Management

- Hamza has worked in the NHS, community, and private settings in addition to six years' experience as a Case Manager, managing a complex clinical caseload of adults and children with a variety of health needs and long-term conditions.
- He has also worked within the NHS as a Physician Associate within Neonatology, Neurosurgery and Vascular Surgery since 2022.
- Hamza has a wide range of experience working with adults, children and young people with long-term neurological conditions including developmental delay associated motor and sensory deficits, as well as acquired brain injury and spinal injury.
- Hamza is skilled in developing and co-ordinating multi-disciplinary rehabilitation programmes in community and hospital settings, enabling effective outcomes and working towards client goals.

Vocational Rehabilitation

- Hamza is experienced in supporting Educational Health Care Plans (EHCP) for children and young people, including transition into further education and work.
- He also applies a biopsychosocial approach, taking into consideration the physiology of the underlying injury, in addition to addressing psychological and social contextual factors. This approach promotes independence and is supportive of a return to work.
