Areas Covered: South East, South West, London

Specialisms

Spinal Cord & Spinal Injury

Complex Orthopaedic

Psychological Trauma

Injury Expertise

- Complete Spinal Cord & Spinal Injury
- Musculoskeletal
- Complex Orthopaedic

Clinical Experience

- Cameron is an experienced physiotherapist. Most recently, he worked as a spinal cord injury Physiotherapist at Stoke Manderville Hospital in which he assessed acute patients with spinal cord injury.
- In this role Cameron was involved in acute assessment of spinal cord injury in order to plan and provide appropriate treatment plans for the acute rehab stage.
- As part of this role, Cameron would provide assessment and referrals for Continuing Health Care Funding for community rehabilitation purposes. During this process, he was required to liaise with several agencies including rehabilitation case managers, community practitioners and local authorities.
- Cameron has extensive experience of managing treatment for all complex orthopaedic injuries and he is very experienced in working with multi-disciplinary teams in order to manage the holistic needs of his patients.

Rehabilitation Expertise

Rehabilitation Management

- As a Rehabilitation Case Manager, Cameron can combine his clinical expertise with this knowledge of rehabilitation process. He has successfully managed adults with complex conditions including severe spinal cord injury, complex orthopaedic and neurological injuries.

- He uses his clinical experience of injury and rehabilitation knowledge to ensure that his clients have the best possible rehabilitation treatment in place to ensure an optimum and timely recovery.

Vocational Rehabilitation

- Cameron is passionate about supporting his clients to return to work or meaningful activities.
- He applies a biopsychosocial approach, taking into consideration the biology or physiology of the underlying injury, in addition to addressing psychological and social contextual factors. This approach promotes independence and is supportive of a return to work.
- His experience of multi-disciplinary team working enables him to work closely to work with Vocational Rehabilitation Specialists to support a safe and sustainable return to work where appropriate.

CPD & Training

- Posture and seating assessments for wheelchair users
- Management of ageing with a spinal cord injury
- Respiratory management of a deteriorating Spinal Injury patient
- Red dot X-ray interpretation for Orthopaedic injuries
- Preventing musculoskeletal injuries in acute spinal cord injuries
- An overview of Bladder and bowel issues in spinal cord injury

Memberships & Qualifications

- BSc Physiotherapy
- Level 3 Sport & Exercise Science
- CMSUK & HCPC Registered
