Specialisms

Children, Young People & Adults

Neurological Conditions

Spinal Cord Injuries

Injury Expertise

- Acquired Brain Injury (Severe)
- Psychological Trauma
- Complex Orthopaedic
- Birth Injuries
- Neuromuscular Palsy

Clinical Experience

- Debjani has over 20 years of experience working as a physiotherapist.
- She has worked in a variety of senior clinical positions including being a multi-disciplinary team lead for a brain injury and neuro rehabilitation community team.
- Debjani has spent eight years of her clinical career working in specialist children's roles including Clinical Lead Physiotherapist for paediatrics at Northampton General Hospital from 2007-2016.

Rehabilitation Expertise

Rehabilitation Management

- Before joining Proclaim Care, Debjani worked towards delivering specialised physiotherapy treatment to people who had sustained brain injuries with dual diagnosis of psychosis. Rehabilitation was delivered both in the community and within an inpatient secured setting (locked rehabilitation).
- Her extensive experience also includes a role as a Senior Physiotherapist, based within the stroke service at Northampton General Hospital, working in the hyper-acute ward and the rehabilitation ward, to promote function in the early stages of stroke.
- Debjani's experience also includes supporting the MDT team to assess and provide tailored

rehabilitation programmes to a client base who are experiencing the effects of neurological conditions, including neuro-palliative treatment.

- Many of these rehabilitation programmes were home-based and required a detailed knowledge of statutory services.
- In her role of discharge planning, Debjani developed the key skills to offer equipment, adaptation recommendations and the importance of maintaining communications with families and external agencies.

Vocational Rehabilitation

- Debjani is experienced in providing the appropriate support for return to work and specialises in providing people with neurological conditions with return to work support.
- Using a client centred approach, with goal setting to engage and motivate clients, Debjani is an effective problem solver, using her critical thinking training to support a timely return to work, where appropriate.

CPD & Training

- Introduction to Case Management
- Flags Biopsychosocial Model: Applying to Rehabilitation Management
- Mental Health Training (depression, anxiety and suicide)

Memberships & Qualifications

- MSc Physiotherapy
- Registered with HCPC
- CSP
- Member of BABCIM
