Base: Yorkshire

Areas Covered: North East, North West

Specialisms

Acquired Brain Injury (Severe)

Neurological Conditions

Psychological Trauma

Injury Expertise

- Orthopaedic Injury
- Complex Upper Limb Conditions
- Musculoskeletal

Clinical Experience

- Eden qualified as an Occupational Therapist in 2016.
- She has extensive experience working in the NHS and as a Senior Occupational Therapist at a private neurology rehabilitation unit as well as Clinical Lead for Stroke Services in the York area.
- Her areas of specialism are acquired brain injury, complex orthopaedic injuries and psychological trauma alongside clients who have complex and long-term needs. She has experience of working with severely injured patients who have reduced or no capacity.
- Having obtained a Masters in Clinical Research, Eden has used her knowledge to present internationally on assessment tools for people with suspected stroke or neurological conditions.

Rehabilitation Expertise

Rehabilitation Management

- Through her work with brain injury and complex neurological rehabilitation, Eden has expert understanding of the principles of clinical excellence for rehabilitation in these areas.
- She demonstrates the ability to co-ordinate complex multi-disciplinary rehabilitation, incorporating both NHS and private sector practitioners to allow for progressive, client-focused and collaborative practice.
- Eden has a wide range of knowledge of both physical and cognitive assessment of patient's

needs. She uses this experience to ensure her clients receive the best possible assessment and treatment.

- Her extensive experience and strong clinical skills allow her to assess, plan, implement and manage a coordinated approach for each individual client, as well as engaging and supporting their families.

Vocational Rehabilitation

- Using a client-centred approach, with goal setting to engage and motivate clients, Eden is an effective problem solver, using her critical thinking training to support a timely return to work, where appropriate.
- As an Occupational Therapist, her focus is on improving function to support an early and sustainable return to work.
