Clinical Experience

- A Registered Nurse, Rebecca has 13 years of experience in Emergency Medicine.
- She worked in a Major Trauma Centre with patients who were involved in complex traumas and / or neurological injuries.
- Her clinical experience led to delivering clinical education and training to Emergency Department staff.
- Recently, Rebecca worked as a Disability Analyst within the Independent Assessment Services conducting face to face functional assessments.

Rehabilitation Expertise

Rehabilitation Management

- Rebecca has a wide range of experience across most injury categories.
- Her specialist interest areas are pain management, wound management, orthopaedics, and psychological trauma.
- Her experience and strong clinical skills allow her to assess, plan, implement and manage a coordinated approach for each individual client and also engaging and supporting their families.
- With a depth of knowledge of the Social Services systems, this helps to maximise the most appropriate and cost-effective support for her clients.

- She has the flexibility to tailor the requirements to drive the best outcomes for the client.

Vocational Rehabilitation

- Rebecca has experience of managing clients with long-term absence from work.
- Her experience as a Disability Analyst gives her an insight into the difficulties that the client can face and support strategies to overcome these.
- Her experience allows her to work closely with Vocational colleagues to arranging graduated return to work plans to achieve a safe and sustainable outcome.
