

Kerry Demir

Rehabilitation Manager

Base: Stamford

Areas Covered: Midlands

Specialisms

Spinal Cord Injury

Traumatic Brain Injury (Complex)

Neurological Conditions

Injury Expertise

- Complex Orthopaedic Injuries
- Psychological Injuries
- Complex Internal Injuries

Clinical Experience

- Kerry is a Registered Adult Nurse with NMC registration since 2008 and extensive experience across NHS and community-based complex care services.
- She has developed significant expertise in the assessment and management of individuals with complex neurological and long-term health conditions including acquired brain injury, spinal cord injury, motor neurone disease, multiple sclerosis, cerebral palsy and dementia.
- Kerry has held senior clinical leadership roles including Clinical & Professional Development Lead, Head of Adult Services and Clinical Nurse Care Manager. In these roles responsibilities included undertaking comprehensive assessments, supporting hospital discharges, coordinating complex care packages, providing clinical guidance to care teams and clinicians, and delivering training and competency-based assessments.

Rehabilitation Expertise

Rehabilitation Management

- Kerry has worked in rehabilitation since 2020 and provides expert case management for clients with complex SCI, TBI and orthopaedic conditions. She uses her significant experience in complex care to ensure that her clients have the best outcomes possible.

- From initial assessment, she is adept at proactively assessing needs, thereby ensuring her clients have access to the most appropriate clinical treatment during the critical early stages of rehabilitation.
- Kerry is recognised for a compassionate, person-centred approach, strong communication skills and a commitment to delivering high-quality rehabilitation and complex care services.

Vocational Rehabilitation

- Kerry is experienced in providing appropriate return to work support to people who have sustained serious injuries.
- She naturally focuses on a holistic and client centred approach, with goal setting to engage and motivate clients. She is an effective problem solver, using her critical thinking training to support a timely return to work, where appropriate.
